

Liberty Liberal Arts Academy

Matthew Day - Teacher Bio

Mr. Day graduated from Augustana College in 2014 with two degrees: one in Biology and the other in Pre-Medicine.

His primary field of study focused around physical science, genetics, molecular biology, and biochemistry. Mr. Day has been a part of an ongoing research project with several microorganisms. His work has helped map out the genome in relatively unknown bacteria species, in order to better understand their function in nature. Specifically, he has technical experience with gene cloning and designing molecular components needed to test gene performance.

Mr. Day teaches Physical Science, Biology, Zoology, Micro Biology, Molecular Biology, Advanced Biology, Genetics, Chemistry, Organic Chemistry, Pre-Veterinary Science, Environmental Science, and Physics.

Mr. Day tutors individual Students in these subjects as well.
