- **Audition Required!** New potential choir members will need to audition to be in the choir. Audition requirements will be to sing approx. 32 bars (or 1 minute) of a song, and then be voice tested for range.
- If Student is awarded a place in the choir, you must commit to the full year.
- All Students are strongly encouraged to take private voice lessons.
- Some songs may feature soloists, which will be chosen at the teacher's discretion. Not all participants will receive a solo throughout the year. Please be kind and supportive of each other, even if you are not placed in a part you particularly wanted.
- Choir participation requires practice work outside of class, so we can focus on putting everything together during class time.
- Choir members are required to install "Dropbox" on their computer or Laptop to receive music and notes from Teacher.
