

[Here at Liberty, we know we are different, and we embrace it!](#)

We are a Private Christian Hybrid school in Elgin, Illinois for Christian children who, for various reasons, cannot meet in a brick-and-mortar school 5-days per week. Our Hybrid School meets 1 day per week for 50 minutes of instruction per class. During the remaining 4 weekdays, Students spend approximately 1 hour per day per class credit on homework. This hybrid education model incorporates high-quality instruction at school and Parental involvement at home.

We offer credits for classes, academic grades, official transcripts, and high school diplomas. We are NOT a co-op, a workshop, an enrichment program, or a social organization and we do not accept credits from these organizations.

Our goal is to offer the highest quality education taught by highly qualified professionals. We strive to offer a challenging yet inspiring education that teaches students more than just the basics. Our classes are small, and we like it that way. Small class-size gives our Students the ability to learn and grow in their knowledge. Small class-size makes even the shyest and quietest of Students feel safe and participate in class. Small class-size gives our Teachers the ability to know every Student, and to make sure every Student learns.

At Liberty, more is not necessarily better. We believe that complete learning and comprehension of a subject can be accomplished with just enough of the right teaching and curriculum. Too much busywork does not ensure learning. It clutters the mind. It entices Students to cram instead of absorb, ponder, and retain. We won't overload you with unnecessary classes, curriculum, or busywork. During vacation times, unless the curriculum is on a certain schedule, we try our best to allow you to have that much-needed family time without homework or daunting projects.

Many of our classes have a collegiate format and encourage problem-solving and "Outside the Box, Inside the Church™" thinking to prepare our Students for success in college and the world.

We focus on outstanding curriculum and highly qualified teachers. Our Teachers are amazing. We have several instructors with PhD's and Master's degrees, college teachers, and professionals in their field. It is our goal to never offer a class that does not have a qualified, experienced teacher.... In fact, if we can't find a highly qualified teacher, we will not offer that class rather than compromise on our commitment.

We are Service-oriented. We expect and encourage all Students to be regular participants Christian service to others. We accomplish this through our Key Club.

Our Outreach Division reaches out to members and non-members alike.

- Our very accomplished Go Tell It A Cappella™ Teen Choir is open to all teens who love to sing.
- Debate: we are actively recruiting Students to participate in our Team Policy Debate.

Compare our registration and monthly fees to those of other private Christian schools in the area, and we think you will be pleasantly surprised. While we do not offer scholarships, we don't want to see a family miss out on an opportunity due to cost. Our Student Council has monthly fundraisers to keep our costs low. Each Spring, we offer our families an optional Fundraiser to help them pay up to 100% of their Registration fees and Administrative costs for the year.

Our Students as Servants Key Club and Peer Review Council are run by the Students because we encourage and expect our Students to serve others and to take an active role in the day-to-day operation of our organization. We have seen great things in our Students when they are given responsibility and a sense of ownership.

Here at Liberty, we take our role in helping you to prepare your students to become well-educated adults who follow God and serve others very seriously, and we hope you give us the opportunity to partner with you.

[Everything we do at Liberty Encompasses our Mission Statement: Educating Outside the Box & Inside the Church™: Christian Learning, Following God, Serving Others](#)
